

Mpox Outbreak

Global impact on destination entry

69

countries have imposed mpox screening measures*

- Destinations that introduced screening & surveillance measures at ports of entry
- Mpox 'Clade 1' cases recorded in 2024
- Mpox 'Clade 1' cases recorded in 2025

* As of 18 February 2025

Measures are in place until further notice; officials in some countries require travellers to complete a health declaration before entry. Travellers should ensure they comply with the latest rules.
